

PFLOW'S PARTNERSHIP PROCESS

LIFETIME GUARANTEE on all STRUCTURAL components.

CODE COMPLIANCE GUARANTEE ensures all PFlow vertical reciprocating conveyors (VRCs) comply with ASME code B20.1 as they have since the first VRC left our facility. If a state authority having jurisdiction (AHJ) finds that your PFlow VRC is not B20.1 code compliant, we will help resolve the compliance issue. If adjudicated as non-compliant with ASME B20.1, PFlow will repurchase the VRC at the full purchase price.

PFLOW'S PASSIONATE PEOPLE

PFLOW'S PURPOSE

Passion for lifting our world...safely.

PFLOW'S VALUES

- P - Pride & Passion** - Be tenacious and resourceful.
- F - Friendly & Fair** - Do the right thing.
- L - Listen, Learn & Lead** - Seek a better way.
- O - Owners & Operators** - Act like it.
- W - Work & Win TOGETHER** - As one TEAM.

PFLOW'S PROVEN PERFORMANCE

Exceptional Products & People

PFlow is 100% focused on robust vertical lifting solutions engineered to perform safely and built to last, even under the toughest conditions. Driven to constantly improve, our clever employees continue to innovate with new safety, reliability and efficiency features that lead the market.

Industry Leader

As the industry founder in 1977 and key author of state and federal codes, PFlow has literally written the book on VRC design and safety. Backed by the strength of the industry's largest and most experienced dealer network, the largest in-house engineering and technical support staffs, and dedicated in-region sales team, PFlow is the industry's trusted VRC partner. Proudly claiming over 20,000 units in operation, PFlow has the experience to ensure your project's success.

Employee Owned

PFlow is an ESOP company with inexplicably passionate employees who truly CARE, and PFlow proudly manufactures its products in the U.S.A.
